This internship is viewed by Team Bryks as being an educational opportunity for your students, rather than a part time job. As such internship will include training/orientation and will focus primarily on learning and development of new skill and gaining a deeper understanding of concept through hands-on application of the knowledge students have gained through classroom. We are confident this 6 month of internship will prepare them better for the industry. We have made detailed plan to train them both technically and on industry relevant behavioral skills.
